

List of Ongoing University funded project in 2025-26

Sl. No.	Project code	Name of the Research Project
PGCA		
1.	UFP-22001	Exploring the natural farming for sustainable crop production, soil health improvement and livelihood security of the farmers.
2.	UFP-24002	Exploration of mutagenesis approaches to create novel variant in <i>poinsettia</i> and standardization of its micro propagation protocol.
3.	UFP-24003	Enhancement of productivity and carbon sequestration in diversified cropping systems by amending calcareous soils with enriched biochar
4.	UFP-24004	Study on sowing window and legume intercropping in summer finger millet for enhancing productivity and profitability
5.	UFP-24007	Identification and validation of suitable seed treatment and nutrient management practices for field pea production under organic farming
6.	UFP-24008	Optimizing Agro techniques for summer and kharif grown sesame in Bihar
7.	UFP-24009	Diversification and intensification of finger millet-based cropping system for higher productivity under upland ecosystem of Bihar
8.	UFP-24010	Screening of varieties/genotypes for zinc efficiency and agronomic biofortification under finger millet chick pea cropping system in zinc stress condition.
9.	UFP-24013	Assessment of heavy metals pollution in soil and ground water of selected districts of Bihar
10.	UFP-24014	Soil fertility and yield assessment under double transplanted rice in fragile flood prone ecosystem.
11.	UFP-24015	Assessing effect of Natural Farming inputs on Rice-Wheat-Moong cropping system using Omission Plot Techniques
12.	UFP-24017	Assessment of foliar and soil application of cow urine on rice-wheat-green gram under natural farming
13.	UFP-24018	Exploring the Management of <i>Fusarium solani</i> induced root rot disease of papaya through Holobiome-Mediated Plant Resistance Approach
14.	UFP-24019	Identification of <i>Rhizoctonia solani</i> AG and evaluation of control measures for the management of black scurf disease of potato in Bihar
15.	UFP-24020	Development of PGPR consortia from various rice eco-system for management of brown leaf spot of rice disease.
16.	UFP-24021	Molecular characterization and biocontrol potential of native entomopathogenic nematodes against fall armyworm (<i>Spodoptera frugiperda</i>)
17.	UFP-24022	Synthesis of silver nanoparticles from <i>Trichoderma asperellum</i> and their evaluation of antifungal activity against important pathogens
18.	UFP-24023	Exploring the potential of soil microbial diversity and inter-crops in Banana orchard for sustainable management of wilt disease of Banana
19.	UFP-24150	Nutrient management in Rabi maize (<i>Zea mays</i> L.) based climatic resilient intercropping system for enhancing system productivity under irrigated condition and their effect on mungbean (<i>Vigna radiata</i> L.)
20.	UFP-24025	Phytohormones mediated plant resistance and their role in management of aphids, <i>Lipaphis erysimi</i> (Kalt.) in mustard"
21.	UFP-24026	Evaluation of litchi tree for honey production potential and colony development of <i>Apis mellifera</i>
22.	UFP-24027	Study of mite diversity associated with prominent vegetable crops and management of phytophagous mite on okra and Brinjal
23.	UFP-24028	Survey and diversity study of entomofauna associated with sweet basil (<i>Ocimum basilicum</i> Linn.) and biorational management of <i>Ocimum</i> leaf folder, <i>Orphanostigma abruptalis</i> (Walker) in Bihar
24.	UFP-24029	Biochemical mechanism of tolerance against gram pod borer, <i>Helicoverpa armigera</i> (Hubner) on chickpea and its management
25.	UFP-24030	Diversity and characterization of natural enemies of insect-pests and assessment of bio-efficacy of plant bio-formulations against insect-pests and diseases of rice based cropping system under natural farming
26.	UFP-24032	Assessment of pollinator diversity, their relation with environmental cues, and conservation outreach of the butterfly garden.
27.	UFP-24033	Organic cultivation of tomato in protected condition with natural inputs
28.	UFP-24034	Standardization of hybridization techniques in small millets

29

29.	UFP-24035	Development of improved semi-dwarf March and Melida rice lines
30.	UFP-24037	Effect of seed priming treatment on seed quality and yield of Bio-fortified wheat (<i>Triticum aestivum</i> L.) varieties
31.	UFP-24038	Developing botanical based seed enhancement treatments for organic and natural farming conditions in chickpea & maize
32.	UFP-24039	Status and prospect of Natural Framing in Bihar
33.	UFP-24040	Assessing the impact of five technologies developed by RPCAU for farmers livelihood in Bihar
34.	UFP-24041	Assessment of performance and market linkage of C-3 cetified organic farming based FPOs along the great Ganges in Bihar
35.	UFP-24042	Evaluate the potential of <i>Melia dubia</i> clones for agroforestry system and environmental security in Bihar conditions
36.	UFP-24044	Socio-Economic analysis of irrigation subsidy for major field crops in Bihar
37.	UFP-25002	Development of Instant Horticulture Gardening Kit-Pusa Kyari for Urban & Semi Urban Inida.
38.	UFP-26005	Ecological Weed Management in Kharif Maize for Sustainable Yield and Improving Soil Health
39.	UFP-26006	Genotypic Characterization for Phosphorus Use Efficiency and Heat Tolerance in the Indian Mustard (<i>Brassica juncea</i> L. Czern. & Coss.) genotypes
40.	UFP-26007	Screening of Oat Germplasm for Dual-Purpose Performance (Seed and Forage Yield) and Resistance to <i>Pyrenophora</i> Leaf Spot
41.	UFP-26008	Characterization of diverse germplasm of rice for drought and early seedling vigour
42.	UFP-26009	Cold Plasma- Mediated Improvement of Seed Quality in Lentil (<i>Lens Culinaris</i> L.) under Combined Drought and Salinity Stresses
43.	UFP-26010	Development and Evaluation of a Multicomponent Seed Coating to Enhance Pigeon Pea Plant Stand Establishment under Excess Moisture Conditions
44.	UFP-26011	Harnessing UV-C Irrigation as a Disinfectant Against Mango Fruit Fly and its Implications on Fruit Quality

TCA, Dholi

45.	5	UFP-24159	Identification of Specialty Mango Germplasm in Bihar Suitable for Processing
46.	5	UFP-24046	Enhancing productivity and profitability of short duration pigeonpea (<i>Cajanus cajan</i>) through optimization of sowing window, crop geometry and climate resilient cropping system.
47.		UFP-24047	Assessment of combined use of Bio-fertilizers and their Mode of Application on Lentil (<i>Lens culinaris</i> L.)
48.	6	UFP-24048	Enhancing Mustard (<i>Brassica juncea</i> L.) yield through judicious use of nutrient, water and microbial inoculants"
49.	6	UFP-24049	Performance of crop geometry and weed management practices in chickpea + linseed intercropping on system productivity and weed dynamics
50.	6	UFP-24050	High density planting and crop geometry in Arvi for [<i>Colocasia esculenta</i> var. antiquorum (L.) Schott.] for higher productivity and net income
51.	6	UFP-24051	Effect of cropping sequence and foliar application of nano urea on nitrogen use efficiency and yield of potato (<i>solanum tuberosum</i> L.)
52.	6	UFP-24052	Application of remote sensing and GIS for assessment of soil erosion and nutrient content in selected district of Indo-Gangetic plains of Bihar
53.	6	UFP-24053	Assessing fertility status as influenced by different cropping systems
54.	6	UFP-24054	Development of IDM modules for management of Banded leaf and sheath blight caused by <i>Rhizoctonia solani</i> sp. ssp. <i>sakii</i> of maize
55.	6	UFP-24055	Exploring the microbiome: A comprehensive study on its role in rapeseed-mustard
56.	6	UFP-24056	Biodegradation of chitin waste into Chitosen and Chito oligosaccharides for bio stimulants and disease resistance in crop plants.
57.		UFP-24057	Management of rhizome rot complex of ginger
58.	7	UFP-24058	Bio-intensive management of Sweet Potato Weevil, <i>Cylas formicarius</i>
59.	7	UFP-24059	Strategies for management of pulse beetle, <i>Callasobruchus chinensis</i> (Fabricius) for safer storage of pulse grains
60.	7	UFP-24060	Development of high yielding maize hybrids containing high starch for ethanol production
61.	7	UFP-24061	Development of transgressive orange fleshed sweet potato clone through polycross method
62.	7	UFP-24062	Development and Identification of

63.	7	UFP-24063	Status of vegetables marketing system in Bihar
64.	7	UFP-24065	Impact of front-line demonstration on Maize and Pigeonpea farmers in Bihar
65.	7	UFP-24066	Indigenous Technical Knowledge (ITK) among Tribal farmers related to crop production in Bihar
66.	7	UFP-24067	Yield response factor, water use efficiency and water footprint of Brinjal crop under different coloured plastic mulch
67.	8	UFP-24068	Simulation study for assessing performance of imputation methods for incomplete multi- location trial data of Maize
68.	8	UFP-26002	Improving Terminal Heat Stress Tolerance in Mustard via Microbe-Assisted Regulation of Physiological Traits
69.		UFP-24024	Biochemical basis of insecticide resistance mechanism in mustard aphid, <i>Lipaphis erysimi</i> (Kalt.) and its management through synergists
COF, Dholi			
70.	8	UFP-24069	Assessment of Molluscan and Crustacean Diversity in selected stretches of Gandakriver of North Bihar
71.	8	UFP-24070	Exploration of the potential of phyto origin materials on health status and reproductive performance of Climbing Perch (<i>Anabas testudineus</i>)
72.	8	UFP-24071	Studies on nano-encapsulation of Oregano essential oil and its use as fish anesthetic agent
73.	8	UFP-24072	Optimization of nuclei insertion and Demonstration of Pearl culture using freshwater mussel, <i>Lamellidens marginalis</i>
74.	8	UFP-24073	Studies on diversity, feeding habits and reproductive biology of ornamental loach fishes from rivers of north-Bihar
75.	8	UFP-24074	Taxonomic evaluation of selected small Cyprinids from North Bihar
76.	8	UFP-24075	Enhancing fish health through Biotherapeutic Microbial Supplementation in India Major Carp <i>Labeorohita</i> fingerlings
77.	8	UFP-24076	Development of Natural Preservative Blended Ready-to-eat Fish Cuisine Using Sous Vide Technique
78.	9	UFP-24077	Development of solar powered aeration system (SPAS) for fish pond
CBS&H			
79.		UFP-24138	Mass production and commercialization of Bio-inoculants for eco-friendly farming and enhancing crop yield.
80.		UFP-24079	Supply Chain Analysis of Jaggery Product in North Bihar
81.		UFP-24080	Developing statistical and machine learning models for wheat yield forecasting based on biometrical characters and weather parameters in Bihar
82.		UFP-24081	Design and Development of portable hybrid dryer
83.		UFP-24082	A comparative study of Indicator weighting techniques for Assessing farmers' adaptive capacity to climate change in Bihar
84.		UFP-24083	Statistical evaluation of pradhanmantri kisan sammannidhi yojana of farmer's in Bihar
85.		UFP-24084	Evaluation of little millets germplasm for waterlogging stress tolerance
86.		UFP-24085	Physio-biochemical responses of lentil under high temperature stress
87.		UFP-24086	Investigating fresh edible rice milk protein extract from immature grains and its bioactive source
88.		UFP-24087	Identification of suitable herbs as micro greens and their biochemical profiling
89.		UFP-24088	Metabolite profiling of curcuma longa under water deficit stress and its regulation by ethylene.
90.		UFP-24089	Identification and validation of candidate genes for waterlogging tolerance in foxtail millet
91.		UFP-24090	Identification of genomic region associated with cadmium tolerance and understanding the molecular mechanism for its mitigation in rice
92.		UFP-24091	Studies on the effect of biofertilizer in enhancing the antioxidant property of sesame (<i>Sesamum indicum</i> L.) seed oil
93.		UFP-24092	Effect of heat stress at pre-anthesis stage on maize: transcriptome profiling and candidate genes identification
94.		UFP-24093	Combined impacts of zinc solubilizing bacteria and zinc oxide nanoparticles on bio fortification of rice crop
95.		UFP-25003	Development of Novel Genic SSR Markers for Drought and Heat Stress Tolerance in finger Millet (<i>Eleusine coracana</i>)

College of Community Science

96.	UFP-24094	Estimation of Sulphur Content of Cruciferous vegetables and its possible use as natural preservatives
97.	UFP-24096	Addressing Malnutrition among Rural Population through Digital Behaviour Change Intervention (DBCI)
98.	UFP-24097	Enhancing dietary diversity and livelihood status among banana growers' community through value chain management
99.	UFP-24098	Ergonomic Intervention in the Workplace of Mithila Painting for Increasing Work Efficiency.
100.	UFP-24099	Enhancing parental involvement in Pusa Block for holistic early childhood development : A Pilot Project
101.	UFP-24100	Assessment of physical and psychosocial well-being of elderly population in aspirational districts of North Bihar
102.	UFP-24101	Assessment of early childhood education on growth and development preschool children of farming community
103.	UFP-24102	Development of moringa leaves and millet based multipurpose flour for reduction of anaemia among children
104.	UFP-24103	Formulation of millet based resistant starch rich food and its evaluation for hypoglycaemic effect among diabetics
105.	UFP-24104	Product development and value chain management of fruits and vegetable for microenterprises.
106.	UFP-26001	Development of Protective Clothing to Mitigate the operational Hazard in Sugarcane

CAET

107.	UFP-23001	Development of lenting harvesting machine.
108.	UFP-24105	Hydrological study and Development of Sustainable Landuse Plan for Gandak River Basin of North Region Using Remote Sensing and Geoinformatics Technique.
109.	UFP-24106	Process technology development of millet added products from Bael fruit (<i>Aegle marmelos</i>)
110.	UFP-24107	Development of battery powered tool carrier for various inter-culturing operations in row crops.
111.	UFP-24108	Development of water squeezing machine for cattle dung as raw material of Diya and other value added product.
112.	UFP-24109	Development of Solar Powered sun protecting hat for farm workers.
113.	UFP-24110	Reduction of Post harvest storage losses in vegetable crops through Technological interventions.
114.	UFP-24111	Study on ultrasonic assisted osmotic drying of litchi quarters and its effect on different quality characteristics
115.	UFP-24112	Development of IoT based real time storage monitoring system for wheat
116.	UFP-24130	Effect of fertigation on the yield and water productivity in Banana crop
117.	UFP-24114	Evaluation of sub soiling and deep ploughing on soil characteristics and productivity of rice-wheat cropping system
118.	UFP-24116	Assessment of bio-efficacy of Unmanned Aerial Vehicle based spraying to manage pests in different crop
119.	UFP-24117	Development of functional foods from pearl millet by optimization of non-thermal and thermos-mechanical process.
120.	UFP-26003	Development of Crop Monitoring and Yield Assessment Tool for Wheat Crop using Geospatial Approaches
121.	UFP-26004	Sustainable District-Level Irrigation Strategy for Samastipur Integrated with Energy and Carbon Footprint Assessment

DIRECTORATE OF RESEARCH

122.	UFP-24118	Effect of supplementing fresh Moringa oleifera leaves on semen characteristics and its evaluation to improve the reproductive efficiency in Ruminants animals of North Bihar
123.	UFP-24119	Development of Economical Rations for local/Native Breeds of Dairy Animals in Bihar
124.	UFP-24120	Integrated Farming System for Higher Systems Productivity and Profitability under Low (Chaur) Situation of Bihar

(6)

126.	UFP-24122	Development and evaluation of rice hybrids using ABR system
127.	UFP-24123	Influence of maize+legume intercropping and nutrient management strategies on system productivity, soil N and P dynamics in calcareous soil.
128.	UFP-24124	Optimizing rice and wheat cultivars on yield and soil health under natural farming in calcareous soil
129.	UFP-24125	Assessment of soil carbon dynamics, yield and quality of turmeric under organic farming
130.	UFP-24156	Identification of causal organism & pathogenesis of mango die back disease in Bihar
131.	UFP-24127	Study on nematodes species associated with banana rhizosphere & bio-rational approaches for their management in Bihar
132.	UFP-24128	Survey of mango insect pests and diseases in important mango growing districts and eco-friendly management of bark eating caterpillar in Madhubani District of Bihar.
133.	UFP-24129	Screening and identification of Urdbean genotypes for high moistures stress tolerance and MYMV resistance
134.	UFP-25001	Sustainable Cultivation of Makhana (<i>Euryale ferox</i>), Plant Geometry & INM Practices
135.	UFP-24016	Assessing soil health under climate resilient agriculture practices in Bihar
136.	UFP-24031	Seasonal incidence and bio-remedy of mango mealy bug (<i>Drosichamangiferae</i>)
SAB&RM		
137.	UFP-23002	Entrepreneurial Climate in Academia: Challenges, Enablers and Framework for its Development in Selected Agricultural Institutions of India
138.	UFP-24131	Understanding the Agripreneurial ecosystem to foster the development process of agri-startups in Bihar
139.	UFP-24132	Business environment analysis of secondary agriculture in India with special reference to marketing and trade
140.	UFP-24133	Assessing the role of SHG in promoting financial inclusion and women's empowerment in Bihar
141.	UFP-24134	Developing market intelligence, based on price forecasting models for selected agricultural commodities in Bihar
142.	UFP-24078	Exploration of microbial diversity from various ecological niches for enhanced degradation rate of organic waste into wealth.
SRI		
143.	UFP-24135	Enhancing system productivity and economic security through high intensity intercropping with autumn sugarcane to various planting geometry
144.	UFP-24136	Assessment of weed seed bank and biology under crop residue with weed management practices in sugarcane multi-ratooning system
145.	UFP-24137	Soil quality improvement and performance of sugarcane plant ratoon system under natural farming in calcareous soil of Bihar
146.	UFP-24139	Development of water logging tolerant sugarcane varieties through hybridization and clonal selection
147.	UFP-24140	Sugarcane Varietal development for high yielding and high sucrose containing varieties resistant against Red rot
148.	UFP-24141	Exploring potential of cowpathy product, bio-control agents and systemic acquired resistance (SAR) molecules for management of Red Rot of Sugarcane
149.	UFP-24142	Impact of Prevalent red rot Pathotypes in Sugarcane under Bihar Agro-climatic conditions
150.	UFP-24143	Exploration of potential bio-agents and development of mass production strategies for bio-intensive pest management in sugarcane agroecosystem
151.	UFP-24144	Design and development of fermenter for sugarcane juice vinegar production
152.	UFP-24145	Enhancement of the shelf-life of sugarcane jaggery cubes through suitable packaging strategies under different storage conditions.
153.	UFP-24146	Effect of Si-rich Bagasse fly ash and microbial inoculants on soil and crop health of sugarcane
Seed		
154.	UFP-24147	Impact of lunar phase on popular landrace of summer mung bean (<i>Vigna radiata</i> L.) under changing climate paradigm in North Bihar conditions.

(5)

155.	UFP-24148	Development of early maturing and high seed yield genotype from advanced mutant lines of Indian mustard for Bihar
156.	UFP-24149	Assessment of mustard varieties in wheat + mustard intercropping system under varying row combination and fertility levels in North Bihar conditions
APRI		
157.	UFP-24151	Zinc fortification of forage sorghum and oats with different methods of application
158.	UFP-24152	Calf Management practices & Prevalence of Haemoprotozoan Infection in Bovine Calves in Different District of Bihar
159.	UFP-25004	Integrated Goat Farming Models for Rural Livelihood and Entrepreneurship Development in Bihar.
PDUCH&F, Piprakothi		
160.	UFP-21006	Collection, characterization and evaluation of Ivy gourd and spine gourd.
161.	UFP-24153	Identification of resistance sources and management of Fruit and Vine rot disease of Pointed gourd (<i>Trichosanthes dioica</i> Roxb). In Bihar
162.	UFP-24154	Evaluation of selected tree willow clones for waterlogged area of Bihar
163.	UFP-24155	Influence of transplanting time and sources of resistance against important diseases of papaya under high rainfall area
164.	UFP-24157	Effect of microbial inoculant and organic amendments in potato and cowpea cropping sequence in calcareous soil
165.	UFP-24158	Assessing the effect of <i>Rhizobium</i> spp. on growth and development of <i>Dalbergia sissoo</i> high rainfall areas of Bihar
166.	UFP-24160	Eco-friendly Management of Greater Wax Moth, <i>Galleria mellonella</i> Linnaeus in Honey bee colonies and infesting combs under storage conditions in Bihar.
167.	UFP-24161	Eco- friendly management of scarring beetle (<i>Basileptasubcostata</i> Jacoby) of Banana in Bihar
168.	UFP-24001	Control of red banded caterpillar in mango: An Integrated approach
169.	UFP-24006	Crop residue management strategy for enhancing productivity of Indian mustard (<i>Brassica juncea</i> L.) using bio decomposer under varying levels of irrigation
170.	UFP-24012	Preparation of comprehensive database cataloguing the mineral nutrient content in various crop cultivars
171.	UFP-24011	Impact assessment of fly ash on ground water quality and their use in sustainable crop production
172.	UFP-24043	Establishment of food forest for sustainable livelihood in Bihar
173.	UFP-24045	Standardization of fruit supplemented with honey.
174.	UFP-24064	An economic analysis of production and marketing of mushroom (Oyster) in Bihar
175.	UFP-24113	Documentation and Validation of Indigenous Technical Knowledge (ITK) on Soil & Water Conservation in Rainfed areas of Bihar
176.	UFP-24126	Development of makhana-based integrated farming system for higher productivity and profitability under lowlands and waterlogged areas of North Bihar
177.	UFP-24001	Control of red banded caterpillar in mango: An integrated approach

Closed University Funded Projects (2025-26)

Sr. no.	Project Code	Name of Research Projects
1.	UFP-21001	Development and Evaluation of model based integrated farming system zero budget Natural Farming and Organic Farming
2.	UFP-21002	Development of promising consortia of biological control agents(fungal and bacterial) for management of <i>Fusarium oxysporum</i> f. sp. cubense Race TR4 causing Fusarium wilt of banana.
3.	UFP-21003	Evaluation of performance of finger millet genotypes in Summer under assured irrigation
4.	UFP-24036	Collection of Purification and Evaluation of Small Millet landraces in Agroclimatic zone-IIIA & IIIB in Bihar
5.	UFP-24095	Design and Development of protective clothing for farm workers engaged in threshing work of grains
6.	UFP-24115	Development of battery-operated handheld weeder
7.	UFP-21004	Enhancing productivity, economic security and employment generation through sugarcanebased crop and product diversification for making a farmers self-reliant
8.	UFP-21005	Developing Sugarcane based integrated Farming System Models for Small Farm holders of North central and north eastern zone.

Ongoing Externally Funded Projects (2025-26)

Sl. No.	Name of Project
1.	National Innovation on climate Resilient Agriculture (NICRA)
2.	Consent for Collaborative Project on Installation of Eddy Covariance Tower at Dr. Rajendra Prasad Central Agricultural University
3.	Developing Indices for Agricultural Innovation Ecosystem to Sustain the Growth Paradigms of Agricultural Systems
4.	Development of Heat Tolerant, High Yielding and Climate Resilient Wheat Cultivars by Utilizing Genomics, Molecular and Physiological Information and Resources
5.	Introgression of QTL(s) for increasing grain Dimethyl arsenic acid (DMA) concentration in mega varieties of rice
6.	Strengthening primary agricultural credit societies as engines of agri value chain development and rural prosperity in Bihar
7.	National surveillance Programme for Aquatic Animal Disease- Phase 2
8.	ICCIC, RGM (Indigenous cattle Conservation & Improvement Centre)
9.	CoEIB, RGM (Centre of Excellence on Indigenous Breed)
10.	Prospering Litchi Honey Development through Geographical Indications in Bihar
11.	Development of heat tolerant and pre-harvest sprouting-resistant-high-yielding wheat genotype through induced mutagenesis
12.	Eco-friendly management of Banana pseudostem weevil and Banana scarring Beetle.
13.	Enhancing income of farmers through value Chain Development of Millets in Samastipur district of Bihar
14.	Assessment of Farm Status and Prospects of Custom Hiring in India
15.	Pradhan Mantri Matsya Kisan Samridhi Sah-Yojna (PM-MKSSY) – Verification and Monitoring Consultant (V&MC)
16.	Advance Makhana Research and Development Centre at RPCAU, Pusa
17.	Improving Adolescent Nutrition through School-Based Interventions in Bihar.
18.	Soil Health Assessment
19.	Establishing Common Incubation Centre for Honey Processing, Primary Processing & Canning of fruits and vegetables, Mushroom and Banana based Cookies.
20.	Centre of Excellence in Millets and value Chain (4th Bihar Krishi Roadmap)
21.	NHM Small Plant Nursery
22.	Centre of Excellence on Jaggery Processing and Value Addition Under the "Bihar Rajya Gur Protsahan Karyakram" at SRI, RPCAU, Pusa
23.	Optimisation of Makhana (<i>Euryale ferox</i> Salisb.)–Fish Integrated Agro-Aquaculture Systems, Ergonomic Harvesting Tool Development and Integrated Studies on Seed Biology for Sustainable Wetland Agriculture in Bihar
24.	Exploring the efficiency of Potassium silicate in rice-wheat cropping sequence under organic farming system
25.	Assessing Turtles/Tortoise Diversity, Habitat Ecology, and Nesting Grounds Identification for Conservation along the Gandak River in Valmiki Tiger Reserve.
26.	Refinement reliability and validity of the climate resilience index developed by reliance foundations Bharat India Jodo (BIJ) programme
27.	Scientific validation on nano-urea plus, nano-DAP and nano-Zn fertilizers for enhancing productivity and sustainability of cereal crops (rice-wheat maize).
28.	Harnessing synergies of nano-fertilizers and nutrient solubilizing strains for enhanced yield, nutrient use efficiency and soil health in calcareous soils under Rice-Wheat cropping System

Closed Externally Funded Projects (2025-26)

Sl. No.	Name of Projects
1.	Empowering Rural Communities: Enhancing Food Security through Sustainable Nutrition Garden and Nutrition-Education Intervention in Bihar
2.	Precision farming Development Centre (PFDC)
3.	Entrepreneurship development programme on freshwater pearl culture: to empower scheduled castes (SC) communities of north Bihar.
4.	Building lentil growing community resilience by the development of climate-smart lentil varieties through farmers' participatory interventions
5.	Enhancement of livelihood of SC community of Bihar through mushroom an allied enterprise
6.	Community empowerment through Medicinal and Aromatic Plants in Jharkhand and Bihar
7.	Nutri Fish"-Fish Processing and Development of Value-Added Products (FIPRO-DE-VAP)
8.	Management of early childhood development through promotion of care practice in aspiration districts of Bihar
9.	Climate Resilient Agriculture Programme Phase III
10.	Monitoring and advisory services for Sugarcane (MASS)
11.	Motivation and training for participatory hybrid paddy seed production in Bihar
12.	Assessing Turtles/Tortoise Diversity, Habitat Ecology, and Nesting Grounds Identification for Conservation along the Gandak River in Valmiki Tiger Reserve.
13.	Comparative assessment of ALDOR Rice Wheat cropping
14.	Comparative assessment of ALDOR Maize
15.	FMTCC(Project is running as Self Sustainable mode)
